Clinical Homotoxicology

MasterClass 2012

Prescribing Homotoxic Medicines

Homotoxicology provides a framework for therapy optimisation.

It has been practiced for the last fifty years and is now widely utilised in 60 countries around the globe by holistic practitioners of various modalities.

Course content:

- ✓ Overview of Homotoxicology
- ✓ Paradigms of Health Care
- ✓ The importance of low dose physiological stimulation to enhance therapy outcomes
- ✓ Signs of regulatory imbalance
- ✓ Essential information on Extracellular Matrix physiology
- ✓ Comprehensive tutorial on medicine usage
- ✓ Understanding the rhythm of physiological function
- ✓ Mucous membrane resuscitation
- ✓ Proven treatment strategies

Why you should make this time investment:

- ✓ Identify why chronic cases need "extra" management.
- ✓ Detailed actual case studies to illustrate therapy optimisation.
- ✓ An engaging learning experience which will benefit you & your patients.

Whatever your modality

- learn why homotoxicology can complement your therapy success.

New Zealand

Brought to you by the ASBRM

Your presenter:

Stacey Jarvis is a qualified Naturopath and Medical Herbalist with considerable experience in clinical practice. She went on to study Homotoxicology and Biomesotherapy and has integrated these into her practice with enormous success. Stacey maintains a busy and growing practice clinic in Devonport, Auckland – since 1994. Teaching affords Stacey the opportunity to share her experience and success in using the very evolved system of Natural Medicine therapy that is homotoxicology – a system of healing that aims to harness and restore natural, bioregulatory cellular process and function generating in many instances, fast and effective resolution for patients and practitioners alike.
